

Statewide List of Farmers Issued Turkey Damage Shooting Permits in 2008

Updated 5/19/2008

The turkey damage shooting permit program is one part of Wisconsin's Damage Program, which assists farmers when wildlife damage their agriculture crops. Wisconsin DNR Wildlife Managers issue special permits to farmers who are experiencing severe damage for removal of the turkeys causing damage. Farmers who receive turkey shooting permits have the option to provide some of their tags to hunters who would like to help them shoot turkeys that are damaging their crops. Again, farmers are not otherwise required to allow hunters to use their damage tags. Hunters assisting the permittee in the removal of turkeys causing agricultural damage must possess a valid spring or fall turkey hunting license and stamp or a valid small game license.

Please be courteous to farmers! Please call them well ahead of time to plan your hunt and please don't call them after 8 p.m
